CLEAN COAL TECHNOLOGY

SEC. 599A. (a) FINDINGS.—The Congress finds as follows:

(1) The United States is the world leader in the development of environmental technologies, particularly clean coal technology.

1 (2) Severe pollution problems affecting people
2 in developing countries, and the serious health prob-
3 lems that result from such pollution, can be effec-
4 tively addressed through the application of United
5 States technology.

6 (3) During the next century, developing coun-
7 tries, particularly countries in Asia such as China
8 and India, will dramatically increase their consump-
9 tion of electricity, and low quality coal will be a
10 major source of fuel for power generation.

11 (4) Without the use of modern clean coal tech-
12 nology, the resultant pollution will cause enormous
13 health and environmental problems leading to dimin-
14 ished economic growth in developing countries and,
15 thus, diminished United States exports to those
16 growing markets.

17 (b) STATEMENT OF POLICY.—It is the policy of the
18 United States to promote the export of United States
19 clean coal technology. In furtherance of that policy, the
20 Secretary of State, the Secretary of the Treasury (acting
21 through the United States executive directors to inter-
22 national financial institutions), the Secretary of Energy,
23 and the Administrator of the United States Agency for
24 International Development (USAID) should, as appro-

3 and activities for which the use of such technology should
4 be considered include reconstruction assistance for the
